## REPORT

OF

## THE SECRETARY OF THE TREASURY,

IN ANSWER

*To a resolution of the Senate calling for the amount of American securities held in Europe and other foreign countries, on the 30th June, 1853.*

---

MARCH 2, 1854.—Ordered to lie on the table and be printed.

---

TREASURY DEPARTMENT,  
March 2, 1854.

SIR: The following resolution was adopted by the Senate on the 4th of April, 1853:

*Resolved*, That the Secretary of the Treasury be requested to procure, so far as practicable, and furnish the same to the Senate at the commencement of the next session of Congress, the following information, viz:

“The aggregate amount of federal, State, city, county, railroad, canal, and other corporation bonds, stocks, or other evidences of debt, held in Europe or other foreign countries, on the 30th of June, 1853, specifying separately, so far as the same can be ascertained, the amount of each of the above descriptions of bonds and stocks.”

In compliance with the above resolution, I have the honor to submit the accompanying documents:

A.—A letter from the Register of the Treasury, dated February 27, 1854, giving the amount of federal stock outstanding on the 30th of June, 1853, and the amount estimated as then held by foreigners residing beyond the bounds of the United States.

B.—A general statement of the amount of bonds of the several States, outstanding on the 30th of June, 1853, and of the amount thereof held by foreigners residing beyond the bounds of the United States, as well as could be ascertained, according to returns received at the Treasury Department from the chief officers of the different States.

C.—A table showing the amount of State bonds outstanding June 30, 1853, the amount of the same then held by foreigners residing beyond the bounds of the United States, according to the estimates of Winslow, Lanier, & Co., in the States marked with an asterisk, the amount of property held by various State governments, exclusive

of school funds, according to the American Almanac for 1854, and the amount of real and personal estate subject to taxation in each State, according to the United States census returns for 1850.

D.—A statement of the amount of bonds of cities, towns, and counties, outstanding on the 30th of June, 1853, and of the amount thereof then held by foreigners residing beyond the limits of the United States, as far as could be ascertained, according to returns made to the Treasury Department, by the following cities, towns, and counties, and including some reported by brokers.

E.—A general statement of so many of the banks as have made returns of the amount of capital paid in, and the amount thereof held by foreigners on the 30th June, 1853.

F.—A general statement of so many insurance companies as have made returns to the Treasury Department.

G.—A general statement of so many railroad companies as have made returns to the Treasury Department, of the amount of capital authorized, the amount paid in, and the amount thereof held by foreigners, and also of the amount of bonds outstanding, and the amount thereof held by foreigners, so well as could be ascertained, on or near June 30, 1853.

H.—A general statement of so many canal and navigation companies as have made returns to the Treasury Department of the amount of capital authorized, the amount paid in, and the amount thereof held by foreigners, and also of the amount of bonds outstanding, and the amount thereof held by foreigners, June 30, 1853.

I.—A general statement of so many miscellaneous companies as have made returns to the Treasury Department of the amount of their capital authorized, the amount paid in, and the amount thereof held by foreigners, and also of the amount of bonds outstanding, and the amount thereof held by foreigners, on the 30th June, 1853.

K.—A general summary of the foregoing documents.

It will be seen by reference to table K, taking Winslow, Lanier & Co.'s estimate as the criterion, that in June, 1853, the aggregate stocks and securities of the character set out in the table, held abroad, was \$222,225,315.

The application of capital to railroads, commenced in 1829, and to canals, prior to that date, but we have no data from which we can state the amount of foreign indebtedness on those accounts. In 1829, the outstanding United States debt was about \$58,400,000; a considerable part of which was then held abroad, and we know that a large amount of United States and other bank stocks was also held abroad, and it might be fair to estimate that the indebtedness of the same character as in the table K was as great in 1829 as it was in 1853, and that the annual interest and dividends to foreign holders of stocks and bonds has reached, for the last twenty-four years, about \$13,000,000.

There is no data from which to make an aggregate statement of the capital that had been applied to canals, railroads, and the establishment of banks, insurance companies, &c., prior to 1829, and which, in connexion with table K, would exhibit the amount applied to those objects since; nor is there any data from which to estimate the value

which the application of capital to canals, railroads, and banks, has given to the solid wealth of the country. All which is respectfully submitted.

Your obedient servant,

JAMES GUTHRIE,  
*Secretary of the Treasury.*

HON. D. R. ATCHISON,  
*President pro tem of the Senate.*

A.

TREASURY DEPARTMENT,  
*Register's Office, February 27, 1854,*

SIR: In answer to your letter of the 25th instant, received this morning, I would state that "the aggregate amount of federal stock outstanding on the 30th June, 1853," was *\*fifty-eight millions two hundred and five thousand five hundred and seventeen dollars and twenty-five cents, (58,205,517 25.)* And that at the same date the amount estimated to be held by foreigners was *twenty-seven millions, (27,000,000.)*

I have the honor to be, sir, most respectfully, your obedient servant,

F. BIGGER, *Register.*

HON. JAMES GUTHRIE,  
*Secretary of the Treasury.*

---

\* This is exclusive of the \$5,000,000 yet to be issued for the Texan indemnity.

## B.

*General statement of the amount of bonds of the several States outstanding June 30, 1853, and of the amount thereof held by foreigners residing beyond the bounds of the United States, so well as could be ascertained, according to returns received at the Treasury Department from the chief officers of the different States.*

State.	Bonds outstanding.	Held by foreigners.	Authorities and remarks.

Comptroller of State of Tennessee.  
Auditor of State of Kentucky.  
Auditor of Public Accounts of Missouri.  
Governor of Illinois.  
Governor of Indiana. The total includes one million, on which the State pays no interest; and the amount given, as held by foreigners, is an estimate.

Auditor of State. Amount held by foreigners, an estimate.  
Auditor General of Michigan.  
Governor of Wisconsin.  
Secretary of State of Iowa.

Auditorial report, November, 1851. Reduced by "scaling" to \$2,268,525.  
Total, with arrears of interest, \$8,357,723. Reduced by "scaling" to \$3,497,765.  
Comptroller of State of California. There is, in addition, a floating debt of \$269,812.

## NOTES.

The cashier of the Bank of America, New York, in reply to a letter of inquiry from this department, gives the amount of bonds of the State of Kentucky held by foreigners at \$1,200,000.

Winslow, Lanier & Co., of New York, in reply to a letter of inquiry from this department, say :

It will be very difficult for us to say where the State securities are held, whether in Europe or this country, yet we can come near it, sufficiently so, perhaps, for your purposes.

1. As to the debt of Georgia, fully three fourths of it held in Europe.
2. Tennessee, over one half held in Europe.
3. Michigan, more than two thirds held in Europe, mostly in Holland.
4. North Carolina, mostly held in Europe; or, at least, over one half.
5. Arkansas, more than two thirds held abroad.
6. Kentucky, about one half held abroad.
7. Mississippi, all held abroad, mostly in Holland.
8. Illinois, three fourths held abroad.
9. Ohio, two thirds held abroad.
10. Indiana, fully three fourths held abroad.
11. California, mostly held in this country.

If these estimates be substituted for those given in the table, the total of State bonds held by foreigners residing beyond the bounds of the United States will be about \$111,000,000, without counting the territorial bonds of Florida, amounting to several millions, or the arrears of interest of Florida, Arkansas, Texas, and Mississippi.

† A small amount held by foreigners.—Winslow, Lanier & Co.

† The returns for California are for only 13 counties in 1850. Later documents give the following results for that State: Value of taxable property in 31 counties in 1852, \$64,388,175; value of taxable property in 29 counties in 1853, \$91,388,375. The returns for 1853 do not embrace seven counties; in some of which there was much taxable property.

#### NOTES.

Under the title of "property owned by State governments," are not included lots and buildings, &c., devoted to governmental uses, but railroad stock, bank stock, &c., which may be sold, and the proceeds, if necessary, devoted to governmental purposes.

Of the property included under this head, the following is stated to be "not now productive:—"

Massachusetts.....	\$1,983,446
New Jersey.....	764,670
Pennsylvania .....	321,032
Maryland.....	16,319,138
Virginia.....	5,899,958
Georgia.....	250,000
Mississippi.....	2,000,000
Louisiana .....	2,416,938
Total.....	29,955,202

\* The immense grants of land made by the United States government to some of the States, and the lands which others of the States have acquired in dif-

ferent ways, appear not to have been included by the editors of the American Almanac in their table.

The returns of the United States Census for 1850 have been selected as being the latest at the command of the Treasury Department, in which the returns of taxable property in the different States are all of one date. As an evidence of the ratio in which the value of such property has increased since 1850, Kentucky may be taken as an example. The official valuation for 1853 is \$366,957,487, against \$291,387,554 in 1850, as stated in the table. Supposing the increase to have been in the like ratio in the other States and in the Territories, the total of assessed value for 1853 would be upwards of \$7,500,000,000, and of true value, about \$9,000,000,000.

It would be a great error to confound the amount of taxable, or rather of taxed property, with the whole wealth of the country. In Kentucky, the only articles subject to the State tax are lands, slaves, horses, mules, asses, neat cattle, stores, pleasure carriages, gold and silver, and other metallic clocks and watches, and pianofortes. So, in the other States, taxation is so arranged as to exempt many objects from its operations, leaving the aggregate wealth of the country a subject of conjecture.

\* Little held abroad.

† A small amount held by foreigners.

The debts of counties, (excepting, perhaps, Philadelphia county,) have, whenever considerable, been incurred by aiding in the construction of railroads, by which it was believed, the value of real estate in the county would be increased in an amount exceeding that of the debt, while the sums received from the railroads, in the form of interest or dividends, would pay the interest on the county bonds. In many instances the railroad companies enter into direct engagements to pay the interest on such bonds. So the debts of cities and towns have in most instances been incurred in the construction of railroads, water-works, gas-works, and other productive works, yielding in many cases a greater income than the interest on the debts, besides the collateral advantages arising from the construction of the works.

## SUMMARY OF RAILROADS,

From returns made, with a few exceptions, by their own officers, (222 railroads)—

Capital authorized.....	\$380,201,100
Capital paid in.....	256,750,422
Capital held by foreigners.....	7,044,025
Bonds outstanding.....	143,958,868
Bonds held by foreigners.....	36,125,172
Total of capital paid in and bonds outstanding.....	400,709,290
Total of capital and bonds held by foreigners.....	43,169,777

## ADDENDA.

Returns from 22 other railroad companies—part taken from the American Railroad Journal, and part obtained from brokers—

Capital paid in.....	\$53,143,545
Bonds outstanding.....	26,151,684

Supposing the proportion of capital stock and bonds held by foreigners in these companies to be the same as in the companies from which returns have been directly received; we have the following results, (244 companies)—

Capital paid in.....	\$309,893,967
Capital held by foreigners.....	8,025,990
Bonds outstanding.....	170,111,552
Bonds held by foreigners.....	43,888,752
Total of capital paid in and bonds outstanding.....	480,005,519
Total of capital and bonds held by foreigners.....	51,914,742

## NOTES.

Owing to the extent of country over which they are spread, the number of superintendents to whom they are entrusted, and the character of the works, it is very difficult to ascertain the number of miles of railroads completed, and the number in progress at any given period.

In the volume prepared by Mr. Andrews, and communicated by the Secretary of the Treasury to the Senate on the 25th of August, 1852, the number of miles in operation is stated to be 12,808 $\frac{3}{4}$ , and in progress 12,612—total, 25,420 $\frac{3}{4}$  miles.

“At least \$80,000,000 are,” it is said in the same volume, “now annually required to carry forward works in progress, and to meet the demand of new ones that may arise. Of this sum, \$50,000,000 are borrowed either of capitalists of this country or of Europe.”

“Average cost of roads from Maine to Maryland, \$40,000 a mile.

“Average cost of roads in the other States, \$20,000 a mile.

“Roads completed, 12,821 $\frac{1}{4}$ miles, at \$30,000 a mile.....	\$384,630,000
“Roads in progress, 12,628 $\frac{1}{2}$ miles, at \$20,000 a mile.....	252,560,000

637,190,000

“It is believed that an extent of line equal to the whole number of miles now in operation will be completed in three years from the present time; at which period the cost of our roads will equal the above sum.”

According to the American Almanac for 1854, the railroads in operation in 1853 had an extent of 14,494 $\frac{1}{2}$  miles; but in this total are included some roads which are but partially in operation.

Lippincott, Grambo & Co.’s new edition of the United States Gazetteer contains a list of 523 railroads; but as roads completed, roads in progress, and roads simply projected, are all mixed together, nothing conclusive can be gathered from it.

‡ This is the whole amount of debt of this company.

**NOTE.**—It has been found impossible to ascertain even the names of the miscellaneous companies. In Massachusetts the policy of conducting business by means of incorporations has been carried to a greater extent than in any other State. From a report to the legislature on the 8th of June, 1853, it appears that the number of manufacturing companies that had been incorporated up to that date was 848, with an authorized capital of \$184,875,998; and the number of miscellaneous companies 267, with an authorized capital of \$41,522,000; total 1,115 companies, with a capital of \$226,397,998, exclusive of banking, railroad, and insurance companies. But the report does not state how many of these ever commenced business, much less how many of them are at present in operation. **From such returns as have been received, it is presumable that but little of the stock of manufacturing and miscellaneous companies is held by foreigners.**
